WEB-DEVELOPMENT EXPERIENCE

Resident Choice App — *MongoDB, Express, React, Node*

-Collaborated in a team to design and develop a user-friendly application for care home residents, allowing them to select meals and activities.

-Leveraged the MERN stack (MongoDB, Express, React, Node.js) to build a comprehensive CRUD system for menu options, enhancing user interaction and personalization.
-Integrated speech-to-text functionality using the Email JS API, enabling residents to send emails effortlessly.

"From Scratch" Recipes — *HTML/CSS/Javascript*

- Independently planned, designed, and implemented the application.
- Demonstrated exceptional problem-solving skills to troubleshoot issues and implement effective solutions.
- Designed and implemented a list page, allowing users to view a collection of recipes and aview page, providing detailed information for each recipe.
- Implemented "Add Recipe" functionality, enabling users to contribute their own recipes to the app.
- Integrated user input validation to ensure data integrity and enhance UX.
- Implemented responsive design techniques to ensure optimal user experience across different devices and screen sizes.

Fashion AI competitions' App — *Typescript/Material–UI/NextJS*

- Collaborated with the frontend team at Fashion AI to develop the competition website.
- Actively participated in code reviews and team discussions, fostering a collaborative and productive development environment.
- Played a key role in meeting project deadlines and delivering high-quality code, ensuring the website's successful launch for the competitions..
- Gained valuable experience in frontend development methodologies and best practices while working on a real-world industry project.

TECHNICAL EXPERTISE

Languages:

HTML/CSS/Javascript, Typescript

Frontend specific:

NextJS, ReactJS

Backend specific:

NodeJS

Databases:

MongoDB

Version control:

Git, Github

AWARDS

Faculty of pharmacy UI Dean's roll of honor list (2014/2015 academic session)

LANGUAGES

English, Yoruba

WORK EXPERIENCE

Fashion AI, London — *front-end intern*

May 2023 - PRESENT

-Built the frontend of the fashion AI competition feature

-Designed the pixel perfect design using SCSS, Material UI

- Worked with version control using Git and Github

Lagos state health service commission, Nigeria — *Pharmacist*

April 2021 - MAY 2022

- Carried out pharmaceutical care interventions on patients' prescription by identifying the appropriate drug selection, dosages or combinations with proper documentation.

- Clerked patients during ward round visits and made necessary interventions and documentation

EDUCATION

Tech Educators, Norwich — *MERN stack bootcamp*

JUNE 2023 - AUGUST 2023

- Gained Full-stack development capabilities, integrating components and managing data flow.
- Collaborated on various projects with version control using Git.
- Completed significant projects utilizing MERN stack technologies.
-Strong problem-solving and debugging skills.
-developed a recipe sharing app that caters for recipe collection.

University of Ibadan, Nigeria — *Bachelor of Pharmacy*

March 2015 - March 2020
